Medicare-Approved Drug Discount Cards and Transitional Assistance Program

As part of the Medicare Modernization Act of 2003 (MMA), the Medicare-Approved Drug Discount Cards and Transitional Assistance Program begins in 2004 to help Medicare beneficiaries save on prescription drugs. Medicare will contract with private companies to offer new drug discount cards until a Medicare prescription drug benefit starts in 2006. A discount card with Medicare's seal of approval can help Medicare beneficiaries save on prescription drug costs.

Medicare-Approved Drug Discount Cards

- Open enrollment started in May 2004;
- Available to beneficiaries eligible for or enrolled in Medicare Part A or enrolled in Medicare Part B, **unless** receiving outpatient prescription drug coverage through State Medicaid programs;
- May charge an annual enrollment fee of no more than \$30, which may be paid by Medicare for some low-income beneficiaries;
- Do **not** require that beneficiaries purchase discount drugs through mail-order pharmacies; and
- Provide beneficiaries the ability to use their discount cards in pharmacies near their homes.

Transitional Assistance Program

Beneficiaries with the greatest need will have the greatest help available to them. Individuals with an annual income in 2004 of no more than \$12,569 if single or \$16,862 if married, and individuals receiving help from their state in paying their Medicare premiums or cost sharing, may qualify for a \$600 credit on their discount card to help pay for prescription drugs. These income limits change every year. Residents of Puerto Rico or a U.S. territory are not eligible for the \$600 credit from Medicare. However, they may be eligible for similar assistance provided by the territory in which they reside. Beneficiaries cannot qualify for the \$600 if they already have outpatient prescription drug coverage from certain other sources.
